

GARDEN LAYOUT MODEL

VIDEO
English

The video provides a step-by-step guide on creating and using a garden or field layout model to illustrate organic farming techniques for planting vegetables, crops and trees. It covers essential organic methods like mixed planting and intercropping. Using basic materials such as sticks and simple sketches, the video offers hands-on demonstrations. Practical examples highlight the advantages of diverse planting compared to monocultures and explain how certain repellent crops can benefit the garden. The video also includes helpful advice on how to organise and store the model for future sessions.
