# HOW TO RUN A PGS FARM VISIT: CO-OPERATIVE FARMING OPERATIONS

**VIDEO**
**English**

This video series explores the Participatory Guarantee System (PGS) farm assessment process across three key areas — crops, animal husbandry and cooperative development. The aim is to provide a practical, real-world look at how PGS assessments are carried out on typical farms. This video focuses on best practices for establishing and managing a small-scale cooperative farming operation. It provides practical guidance and inspiration for setting up a cooperative system that aligns with the South African Organic Sector Organisation's organic standards.

**Produced by:** South African Organic Sector Organisation (SAOSO)
**Who is this for:** These videos are designed especially for current and prospective PGS facilitators who want to deepen their understanding of the assessment process in action.
