

DIRECTORY OF BIOFERTILIZER PRODUCERS IN TANZANIA

*Connecting farmers with locally available biofertilizer producers and
suppliers*

***Produced by Tanzania Organic Agriculture Movement (TOAM), July,
2026***

1. ABOUT THIS KNOWLEDGE PRODUCT

Biofertilizers are an important component of organic agriculture and agroecology, with potential to support soil fertility management and improve the availability of biological nutrient inputs to farmers.

However, farmers and other agricultural stakeholders who implement environmental friendly production activities, faces challenges in identifying who produces biofertilizers, what products are available, where producers are located, and how they can be contacted.

This directory has been developed to bring together available information on biofertilizer producers in Tanzania and make it easier for farmers, extension officers, agro-dealers, farmer organizations, researchers, development partners and other stakeholders to identify and contact producers.

The directory draws on information collected through TOAM's assessment of bio-input producers in Tanzania. The assessment involved consultations with producers from Mainland Tanzania and Zanzibar.

Why This Directory Matters

The availability of appropriate organic inputs, particularly biofertilizers and bio-pesticides, has been identified as an important issue affecting the development and productivity of organic agriculture in Tanzania. The assessment conducted by TOAM to 17 representative sample of biofertilizer producers highlighted opportunities for local producers and innovators to contribute to improving the availability and affordability of these inputs.

This directory therefore serves as a practical information resource, helping users move from simply knowing about biofertilizers to identifying potential producers and sources of supply.

Important to note regarding registration status indicated

One important issue highlighted by the assessment is that producers are at different stages of the regulatory registration process. Among the 17 bio-input producers surveyed, **6 (35%) had completed registration with TFRA and/or TPHPA**, while others were either undergoing registration or had not yet registered.

Therefore, the registration status shown in this directory should be understood as the **status reported or recorded during the assessment**, rather than as a permanent status.

LIST OF PRODUCERS OF BIO FERTILIZERS:

Sn	Company	Location	Fertilizer Name	Telephone	Status of Registration	Place of Origin	Email
1	Plant biodifender	Kilimanjaro	Plant lishe	+255783877117	Registered	Local	neverm@plantbiodefender.s.co.tz
2	Aljas Product	Pemba	Seaweed organic fertilizer	+255777385895	In process of registration	Local	
3	Asili Agri Centre	Zanzibar	Bokash/compost	+255715085919	In process of registration	Local	asiliagricentre@gmail.com
4	Agriculture media	Dar es salaam	Azoverm organic fertilizer	+2555717135869	In process of registration	Local	majivur@gmail.com
5	Asili organic project	Dar es salaam	Asili Bio stimulant	+255783545454	In process of registration	Local	<u>emkilanya@gmail.com</u>
6	Firdous Biotech	Zanzibar	Mabuno bora (biostumulant)	+255620259632	In process of reg	Local	<u>yussuf@firdousbiotech.com</u>
7	Hazaa investment	Dar es salaam	Biofertilizer	+255767322764	Registered	Imported	info@hazaainvestment.com
8	Kilimo Sustainable Movement	Arusha	Imara Booster	+255742002091	Not registered	Local	edwardjacob763@gmail.com
9	Lukwangule organic products	Morogoro	Boresha Extras		In process of reg	Local	lukowotradhealer@gmail.com
10	Mabwepande compost	Dar es salaam	Compost	+255747 960338	Registered	Local	compost@biobuu.africa
11	Macdonald fertilizer	Songwe	Organic fertilizer	+255652 628955	Process of Reg	Local	Mcdon077@yahoo.com
12	Moswery Agribusiness solution	Dar es salaam	Biogenic fertilizer	+255672377676	Reigistered	Local	pascal.moswery@gmail.com

13	NASEC Agro Supplier	Kilimanjaro	Kijani hai-Green and brown enhancer	+255783894541	In process of registration	Local	emmanuelnyange2018@gmail.com
14	Safari Organic Company	Dar es salaam	Homax Dry organic fertilizer	+255657459579	Registered	Imported	Sales@safariorganic.com
15	Tanzania Biotech Products	Dar es salaam	Biofertilizer-Dimargon,fosforino	+255 759 554 812	Registered	Local	mzirayson@yahoo.com
16	Hakika Fertilizer	Dar es salaam	Biofertilizer	+255 679 759 883	Registered	Local	info@hakikafertilizer.co.tz
17	SJS Organic	Kilimanjaro	Biofertilizer	+255756412278	Not registered	Local	sjsorganic@gmail.com
18	Biosustain	Singida	Biofertilizer	+255715883786	Not registered	Local	haider@biosustain.de
19	Alliance Ginnaries	Simiyu	Biofertilizer	+255757656522	Not registered	Local	williammalecela@gmail.com
20	Kilimanjaro Environmental Protection Initiative (KEPII)	Kilimanjaro	KEPI	+255762940512	Registered	Local	Ellykimaro35@gmail.com
21	Nov feed	Dar es salaam	Biofertilizer -Nov feed	+255693438663	On process	Local	dianaorembe@novfeed.com
22	Cutoff recycle Ltd	Arusha	Biofertilizer	+255742290884	Registered	local	davidd@ctoffrecycle.co.tz
23	Yes Group	Kagera (Karagwe	Biofertilizer	+255753052507 /+255768852190	Registered	Local	directors@yesgroup.co.tz
24	I&E Agri Mifugo	Karagwe	Biofertilizer	+255769328162	Not registered	Local	
25	Kilimanjaro Permaculture Community	Moshi Kilimanjaro	Vermi-Compost	+255769228559	Not Registered	Local	info@kpc.or.tz

26	Kilimanjaro Permaculture Community	Moshi Kilimanjaro	Bio-booster	+255769228559	Not Registered	Local	info@kpc.or.tz
27	Kilimanjaro Permaculture Community	Moshi Kilimanjaro	Biopestside	+255769228559	Not registered	Local	info@kpc.or.tz
28	Anaby Green Company Ltd	COMPANY	biofertilizer	+255658217070	Registered	Local	<u>mndelwa2015@gmail.com</u>

What Farmers Should Check Before Buying Biofertilizer

Before purchasing or using a biofertilizer, farmers should:

- Confirm the product name and producer.
- Check the registration status where applicable.
- Read the product label and instructions for use.
- Check the recommended crop(s) and application method.
- Check the recommended application rate.
- Check storage requirements and product condition.
- Confirm the producer's contact details if additional technical information is required.
- Ask the producer or authorized supplier about availability and appropriate use.

The inclusion of a producer in this directory does not by itself constitute TOAM's certification, approval or endorsement of a particular product. Users should verify the current registration status and product information with the producer and/or relevant regulatory authority before purchase and use.

ACCESS MORE KNOWLEDGE ON ORGANIC AGRICULTURE AND AGROECOLOGY

This knowledge product is also available on the KHEA Digital Knowledge Platform, alongside the Catalogue of Biopesticide Producers.

We encourage farmers, extension officers, agro-dealers, researchers and other stakeholders to visit the KHEA Digital Knowledge Platform to access these and other knowledge products on Organic Agriculture and Agroecology.
